Director: Cyrus Ginwala

Undergraduate Advisors: Brandes, Ginwala, Grafilo, Hanna, Hogarth,

Lifsitz, Modirzadeh, Neve, Speight, Suzuki, Todorov, Walsh-Wilson,

Woodward, Xiques, Yarbrough

Graduate Coordinator: Benjamin Sabey

### Program Scope

The School of Music offers two undergraduate and two graduate degrees (see below) The School also offers two minors in music: a liberal arts minor, that provides a planned sequence of musical development from which future enjoyment and learning can proceed, and a minor in World Music and Dance, which is interdisciplinary in character.

A variety of individual and ensemble music performance opportunities are available to all SF State students, including Wind Ensemble, Jazz Band, University Symphony, Chamber Singers, Afro-Cuban Ensemble, and Women's Chorus. A number of small and specialized vocal and instrumental ensembles that are part of the Chamber Music, Jazz, and Creative Music programs are also available.

Scholarships in music are available and awarded based on musical and scholastic achievement and musical promise. Many of these scholarships are designated for specific fields of study, while others are open to music majors in any field of study. Auditions for scholarships are held two to four times each year. Students must schedule an appointment to audition for a scholarship. For further information and an application, contact the School of Music.

San Francisco State University has been an accredited institutional member of the National Association of Schools of Music since 1963.

### Faculty and Facilities

Faculty in the School of Music includes internationally recognized performers, composers, music educators, authors, and research scholars. Each faculty member has a strong commitment to students and brings their knowledge and expertise into the process of teaching and learning music. The world-renowned Alexander String Quartet is quartet-in-residence at SF State. The members of the quartet are faculty in the School and coordinate, along with other faculty, our unique Chamber Music program. To meet our faculty, please visit the School of Music website at <http://music.sfsu.edu/people> (<http://music.sfsu.edu/people>).

The Music Program is housed in the Creative Arts Building. Facilities include McKenna and Knuth Theatres, seating 701 and 322 respectively; a piano laboratory; choral and instrumental ensemble rehearsal space; classroom and practice facilities; an electronic music laboratory; and a music computer lab with more than 20 workstations.

The J. Paul Leonard Library provides music listening facilities; computer access; and an extensive collection of scores, recordings, and books on music. The Frank V. de Bellis Collection of Italian culture, located on the

fourth floor of the library, contains a rich assortment of historic musical instruments, rare books, musical manuscripts, and scores and archival sound recordings.

### Career Outlook

Career options for music majors are very diverse. The analytical, concentration and listening skills, collaborative experiences, and broad historical and cultural knowledge gained through the study of music prepare students to achieve in many professional arenas. Their individual achievements may lead them into specific professional fields of music, including performance, composition, scholarship, teaching, or into another profession that can benefit from the knowledge and skills gained in music study.

Graduates of SF State University music programs currently perform as soloists or as members of symphony orchestras, opera, chamber ensembles, choruses, rock groups, jazz combos, and a variety of intercultural consorts. They conduct Broadway musicals, church choirs, community choruses, commercial music, operas, and symphony orchestras. Some work as composers, arrangers, and producers in a wide variety of musical environments, write recording and program notes, serve as music librarians, design and work with music technology, and work as critics and lecturers. Others teach music at every educational level from pre-school through university in independent studios and public and private schools and colleges. They occupy key positions as music administrators and provide leadership for professional music organizations. School of Music graduates have also gone on to careers outside of music in fields as diverse as medicine, business, and law. Whatever their chosen career path, the education our graduates received has provided the educational foundation they needed to provide a life filled with meaning and professional accomplishment. Wherever their careers have taken them, they continue to create, perform, analyze, write about, lobby for, and listen to music both for profit and for pleasure.

### Undergraduate Programs in Music

The School of Music offers both professional and liberal arts degree programs in music, as well as courses that enrich the general education and cultural life of the University. The Bachelor of Arts in Music provides a humanistic approach to the study of music as a significant part of human tradition and culture. The Bachelor of Music is an intensive curriculum for qualified advanced undergraduate students seeking to attain professional levels of expertise in a specialized music discipline. All music majors are assigned a faculty advisor with whom they confer each semester to develop an appropriate program of study. The Bachelor of Arts degree is a flexible, liberal-arts degree, with an emphasis in music. In consultation with a faculty advisor, students in the Bachelor of Arts may plan a course of study in an area of interest.

### Bachelor of Music

All students in the Bachelor of Music degree must pass both a performance audition on an instrument or voice, and demonstrate competency in music theory, aural and piano skills sufficient for successful music study at a four-year university. The performance audition must establish that the individual possesses music achievement adequate to effectively engage in musical performance in the School of Music. Students who pass the performance audition may demonstrate competency in music theory, aural skills, and piano, either through passing placement examinations or completing specific coursework at San Francisco State University. Auditions and placement examinations are given at least twice each year. Students may only audition or take placement examinations twice.

Students who pass the performance audition but do not demonstrate college-level competency in aural skills and music theory must take MUS 130 during their first semester as music students in the School of Music. A grade of C or better in MUS 130 is required to satisfy the aural skills and music theory standards required to proceed in the Bachelor of Music degree program. Units earned in MUS 130 may not count toward the required units in the Bachelor of Music degree. While satisfying aural skills, music theory, and piano degree program admissions standards, students who pass their performance audition are expected to enroll in other music courses that will apply toward university degree requirements. These courses include performance ensembles and MUS 150. Please consult with your assigned music advisor about appropriate choices.

Individual instrumental and vocal applied lessons are available to Bachelor of Music majors who have passed the performance audition and the aural skills and music theory placement examinations. Participation in an ensemble is required of all students enrolled in applied lessons. Students enrolled in individual voice or instrumental instruction are required to enroll in 1 unit of appropriate ensemble for each half-hour of private instruction received. Ensemble enrollments must be approved by the faculty advisor for them to satisfy this requirement. (Please see individual program requirements for the maximum number of ensemble units, MUS 371 – MUS 390, applicable to degree requirements.) Students must also maintain full-time enrollment to qualify for individual instruction. There is a limit to the total number of individual lessons each student may receive, depending on the degree program in which the student is enrolled. Students enrolled in applied lessons must also maintain concurrent enrollment in any required musicianship, theory, or ensemble courses.

## Bachelor of Arts in Music

Auditions and placement exams are optional for students in the Bachelor of Arts degree. Students who wish to be considered for scholarship should audition live or send a link to a video audition. Students who choose not to take placement exams or do not demonstrate college-level competency in aural skills and music theory must take MUS 130 during their first semester as music students in the School of Music. A grade of C or better in MUS 130 is required to satisfy the aural skills and music theory standards required to proceed in either the Bachelor of Arts Degree. Units earned in MUS 130 may not count toward the required units in the Bachelor of Arts degree. While satisfying aural skills, music theory, and piano degree program admissions standards, students are strongly encouraged to enroll in other music courses that will apply toward university degree requirements. These courses include performance ensembles and MUS 150. Please consult with your assigned music advisor about appropriate choices.

## Graduate Programs in Music

The School of Music offers a Master of Arts in Music with emphases in composition, music education, or music history; and a Master of Music in Performance with emphases in vocal or instrumental performance, chamber music, or conducting (choral or instrumental). The Master of Arts in Music program is for students who have highly developed interest and achievement in one of the following specific areas of music study; an interest in teaching as music faculty in two- and four-year colleges; are K–12 teachers seeking additional expertise in specific areas of music that will enhance their skills and knowledge as music educators; as scholars and historians; or, are seeking preparation for professional careers in composition, including for film and video games. The Master of Music provides graduate study for the superior performer, with the goal of

maximum development of specialized skills. Either the Master of Arts in Music or Master of Music degree programs are appropriate for students who have the goal of advanced graduate study at the doctoral level.
