COMPUTER ENGINEERING AND MS IN ELECTRICAL AND COMPUTER ENGINEERING SF SCHOLARS ROADMAP

The San Francisco State Scholars program provides undergraduate students with an accelerated pathway to a graduate degree. Students in this program pursue a bachelor's and master's degree simultaneously. This program allows students to earn graduate credit while in their junior and/or senior year, reducing the number of semesters required for completion of a master's degree.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

[1] ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

[2] GE Area E (Lifelong Learning and Self-Development) is satisfied upon completing ENGR 100.

[3] To determine the best B4 course option, students should complete the online advising activity at mathadvising.sfsu.edu (https://mathadvising.sfsu.edu/). Questions? Contact Gator Smart Start. (https://gatorsmartstart.sfsu.edu/)

[4] GE Area A: Critical Thinking (A3) is satisfied upon completion of ENGR 205 and either ENGR 201 or ENGR 213.

[5] To avoid taking additional units, it is recommended that you meet **SF State Studies** (AERM, GP, ES, SJ) and **Ethnic Studies requirements** within your GE or major.

[6] To avoid taking additional units, it is recommended that you meet **U.S. and California Government** (USG/CSLG) within Upper-Division GE.

[8] **Major Electives (minimum 6 units)**

Choice of upper-division electives must demonstrate a clearly identifiable educational objective and have an advisor's approval. A study plan of intended upper-division electives must be approved by the student's advisor and the program coordinator prior to registering for ENGR 696.

A minimum of 6 units from the following list of courses is required. Students with a GPA of 3.0 or better and the required prerequisites may take graduate courses (numbered 800 and above) with the approval of their advisor or the program coordinator.
